  - Configurable to customer needs and requirements

With an average daily temperature of 65.9 degrees F, low humidity and an average of 284 sunny days per year, the Unical MRO facilities at the San Bernardino International Airport (SBD) makes an ideal location for aircraft parking and long term storage. The airport offers a 10,000 ft. x 200 ft. runway, a 24 hour a day control tower, customs clearance, international trash service, and FBO services. LAX, ONT, SNA and PSP airports are a short drive away.

Contact us for storage fees, dismantling rates and part harvest packages.
